Syracuse, NY 13202

Dear Mr. Marquis,

When planning the reconstruction of I-81, please take my following comments into consideration:

Wilson Park should not be a staging ground for construction.

nyclu.org/i81 | #LetsTalkAboutI81

A comprehensive school plan must happen before Final EIS.

nyclu.org/i81 | #LetsTalkAboutI81

The MLK proposed on and off ramp must be moved 600 feet away from the school.

nyclu.org/i81 | #LetsTalkAboutI81

Dear Department of Transportation,

When planning the reconstruction of I-81, please take my following comments into consideration:

New walkable access points to business loop south of Adams to Colvin.

nyclu.org/i81 | #LetsTalkAboutI81

New roadway access points to business loop south of MLK Blvd.

nyclu.org/i81 | #LetsTalkAboutI81

Pedestrian crossing of Almond Street provided at Monroe Street.

Dear Mr. Marquis,

When planning the reconstruction of I-81, please take my following comments into consideration:

The minority community in Syracuse deserves to be trained now to be able to work on this project.

The air quality & lead exposure must be studied & managed to prevent further harm to people during this project.

Economic development must be inclusive - the land use should be determined by community advocates, not faceless investors.

Dear Department of Transportation,

When planning the reconstruction of I-81, please take my following comments into consideration:

Comprehensive health analysis for residents south of MLK Blvd adjacent viaduct.

nyclu.org/i81 | #LetsTalkAboutI81

Air and noise pollution must be mitigated at Dr. King School.

nyclu.org/i81 | #LetsTalkAboutI81

Wilson Park should not be a staging ground for construction.

NYSDOT Region 3
I-81 Viaduct Project
333 E. Washington St.
Syracuse, NY 13202

Dear Department of Transportation,

When planning the reconstruction of I-81, please take my following comments into consideration:

- What is the plan to protect children at the Martin Luther King school both during + after construction?
- Children living near highways have extremely high asthma rates. This applies to all sections of Route 81 including the interchange planned once the viaduct comes down.

How will neighborhood residents be compensated (restorative justice) for 50 years of damage to their health + economic well-being? How will you protect neighborhoods from gentrification once the viaduct comes down? How will you plan long term for non-fossil fuel transportation that emits fewer harmful fumes?

Please protect, compensate + respect residents in the neighborhoods impacted by Route 81 ALL ALONG ITS route through the city.

Let's talk about I-81.

Dear Department of Transportation,

When planning the reconstruction of I-81, please take my following comments into consideration:

The children you are putting in danger for all the reconstruction Please make it safe.

The locals living in the community and have contributed to I-81's history

Please, think of a plan of re-mediation for the construction of I-81 as you plan to reconstruct it.

Invest in this community, instead of displacing them.

Let's talk about I-81.

Dear Department of Transportation,

When planning the reconstruction of I-81, please take my following comments into consideration:

The air pollution already in existance, and the air pollution that will happen during construction.

Justice is done to a red lined community. Primarily by preserving the character of the neighborhood.

Business & land is given to the residents of the 15th Ward, and green spaces are communicated w/ a racial justice mindset.

Syracuse, NY 13202

Dear Department of Transportation,

When planning the reconstruction of I-81, please take my following comments into consideration:

The history of discrimination of this region needs to be taken into account when planning for the reconstruction of I-81 and the removal of the viaduct. Particularly the concerns of the present community need to be addressed in a manner that maintains and benefits their community.

Children's health should clearly be a priority consideration, and proper precautions need to be taken to safeguard their health and safety.

Listen to the NYCLU's plans and suggestions - they have the community's interests at heart.

Let's talk about I-81.

Dear Department of Transportation,

When planning the reconstruction of I-81, please take my following comments into consideration:

How will you protect the community during the commencement of the procedure from pollutants??

Will citizens have to be relocated during this process and if so will they be able to return without duress??

Once work has started there should be adequate (more) lighting and signage. There should also be BLOCK captains who can relate on a weekly basis amongst each other and to members of the I-81 construction team any problems that arise

What about green space?? What about parks, trees, forestation? ARE WE IN DANGER OF HOMELESSNESS????

When planning the reconstruction of I-81, please take my following comments into consideration:

The quality of air during construction

People that live in the neighborhood should work on these jobs!

Funds for windows / ventilation systems for the homes near the construction site.

Dear Department of Transportation,

When planning the reconstruction of I-81, please take my following comments into consideration:

This project again will affect ppl in Colorful Public Housing. WHY Healthwise, is it going hurt to locals. CANCER Traffic in the area, it will be even worse at 5AM or even early morning traffic.

Trust is an issue about this project, and those planning it. It about money to ppl who have money. TRANSPARENCY We will have to walk around w/ mask for 7 yrs.

What about the possible spillover from SU - taking over the city (Downtown area) Displacement Displacement / Displacement

Let's talk about I-81.

Dear Department of Transportation,

When planning the reconstruction of I-81, please take my following comments into consideration:

It is imperative that there is a Mandatory 60% hiring requirement for the local PLA Agreement. Economically the local economy will benefit more from Tax Revenue from income.

In terms of hiring requirements for DBE, this should at minimum require a 50% utilization rate. Increasing these requirements allow more dollars to remain local & therefore a boost to Local Economy.

Lastly, we need a DBE certification training in order to educate & inform the community about this process to increase & encourage Entrepreneurship.

In order to Attain Equity, we must require Equality of Acc

333 E. Washington St.
Syracuse, NY 13202

Dear Department of Transportation,

When planning the reconstruction of I-81, please take my following comments into consideration:

Please ensure current residents are allowed to stay in their community, because they want to, & create a land-trust for the community to have a say in how the 8-acres, from I-81 removal, will be used.

Install & monitor air filtration systems in Dr. King school before & throughout the construction process. Have a substitute school in place for students to attend during the construction If the living conditions become impacted.

Please ensure the development plan includes terms that invest in the community while preventing property value & property tax increases.

We need to protect childrens health & the community structure & character.

Let's talk about I-81.

Dear Department of Transportation,

When planning the reconstruction of I-81, please take my following comments into consideration:

ENVIRONMENTAL JUSTICE

Communities generationally redlined deserve to have agency in deciding what goes on in the air they breathe and soil they walk on. Please consider returning 8 acres to Syracuse City so communities redlined can be compensated.

Restorative justice

This is a moment. Transportation has the opportunity to rectify past acts of environmental racism. Those impacts still are felt today. We study environments and justice. Please keep social justice and environmental justice in mind.

Changing the status quo

LISTEN to people in effected communities. If no one knows about a meeting - reschedule. You can be better. We can do better. Ask. Give communities opportunities to decide their future. Center public transit and community justice instead of indu cars and economic development

I am an Environmental Studies scholar writing from ESF. I live across from the viaduct. I hear it every night. Please take these thoughts into consideration. This is where change can happen.

Let's talk about I-81.

Dear Mr. Marquis,

When planning the reconstruction of I-81, please take my following comments into consideration:

The minority Community in Syracuse deserves to be trained now to be able to work on this project.

The air quality + lead exposure must be studied + managed to prevent further harm to people during this project.

Economic development must be inclusive - the land use should be determined by Community advocates, not faceless investors.
